FOREWORD

The Government of Kenya (GoK) is committed to ensuring that policy objectives for Education, Training and Research meet the aspirations of the Constitution of Kenya 2010, the Kenya Vision 2030, National Curriculum Policy 2018, the United Nations Sustainable Development Goals (SDGs) and the regional and global conventions to which Kenya is a signatory. Towards achieving the mission of Basic Education, the Ministry of Education (MoE) has successfully and progressively rolled out the implementation of the Competency Based Curriculum (CBC) at Pre-Primary, Primary and Junior School levels.

The Kenya Institute of Curriculum Development (KICD) reviewed the curriculum and rationalised the number of learning areas in 2024. The review and rationalisation process was informed by several factors, among them, the recommendations of the Presidential Working Party on Education Reforms (PWPER) and reports of the continuous curriculum monitoring and evaluation activities.

The reviewed curriculum designs build on competencies attained earlier by learners. The designs prepare the learner for smooth transition to the next level. The designs will also afford the learner opportunities for developing requisite competencies and enable them to interact with other people and the environment around them.

The key components of the curriculum designs include the National Goals of Education, the essence statement, general and specific learning outcomes as well as the strands and sub strands. Suggested learning experiences, key inquiry questions, core competencies, Pertinent and Contemporary Issues (PCIs), values and assessment rubrics are also outlined in the curriculum designs.

It is expected that all Government agencies and other stakeholders in Education will use the designs to plan for the effective and efficient implementation of the Competency Based Curriculum.

Thank you.

HON. EZEKIEL Ombaki MACHOGU, CBS
CABINET SECRETARY,
MINISTRY OF EDUCATION

PREFACE

The Ministry of Education (MoE) rolled out the Competency Based Curriculum (CBC), nationally in 2019, following a national convention in 2017 where the *Basic Education Curriculum Framework (BECF)* was adopted by stakeholders and a national pilot of the curriculum in the Early Years of Education (EYE) in 2018. According to the UNESCO IBE requirements, a curriculum should be reviewed every five years. So, the review of CBC was due from 2023. In view of this, the reviewed curriculum designs will enhance the implementation of CBC since it corporates the lessons learnt from the implementation of CBC so far.

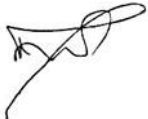

Consistent periodical review of the curriculum is also critical in the realisation of the Vision and Mission of the on-going curriculum reforms as enshrined in the Sessional Paper No. I of 2019 whose title is: *Towards Realizing Quality, Relevant and Inclusive Education and Training for Sustainable Development* in Kenya. The Sessional Paper explains the shift from a content-focused curriculum to a focus on producing an engaged, empowered and ethical citizen.

Therefore, the reviewed curriculum designs will facilitate the inculcation of core competencies in CBC, which are identified as: communication and collaboration, critical thinking and problem solving, creativity and imagination, citizenship, digital literacy, learning to learn and self-efficacy.

The curriculum designs provide suggestions for interactive and differentiated learning experiences linked to the various strands and sub strands and other aspects of the CBC. The designs also outline suggested learning resources and varied assessment techniques. It is expected that the use of these designs will lead to enhanced learning outcomes at various levels, prepare the learner for smooth transition to subsequent grades and make learning enjoyable.

The MoE requests all stakeholders to keep giving feedback on the curriculum designs to inform the review during the next cycle.

Thank you.

DR. BELIO R. KIPSANG, CBS

EARLY LEARNING AND BASIC EDUCATION
MINISTRY OF EDUCATION

ACKNOWLEDGEMENT

The Kenya Institute of Curriculum Development (KICD) Act Number 4 of 2013 (Revised 2019) mandates the Institute to develop and review curricula and curriculum support materials for basic and tertiary education and training. The curriculum development process is guided by research, international best practices as well as stakeholder engagement. The Institute conceptualised the Competency Based Curriculum (CBC) in consultation with the Ministry of Education and other stakeholders. According to the *Basic Education Curriculum Framework* (KICD, 2017) the conceptualisation of CBC was informed by 21st Century learning needs, the Constitution of Kenya 2010, the Kenya Vision 2030, the East African Community Protocol, the International Bureau of Education (IBE) Guidelines and the United Nations Sustainable Development Goals (SDGs).

KICD is funded by the Kenya Government to discharge its mandate. The institute also receives support from development partners targeting specific programmes. The reviewed curriculum designs were developed with the support of the World Bank through the Kenya Primary Education Equity in Learning Programme (KPEELP) - a project coordinated by MoE. KICD wishes to most sincerely thank the Government of Kenya, through the MoE and other development partners. More specifically, KICD appreciates the Cabinet Secretary - MoE and the Principal Secretary – State Department of Basic Education,

Additionally, the Institute expresses gratitude to all the KICD staff members, teachers, university lecturers, MoE staff, Semi-Autonomous Government Agencies (SAGAs) and representatives of various stakeholders; among others, for their contributions to the development of the reviewed curriculum designs. Finally, KICD acknowledges the Chief Executive Officers of the Teachers Service Commission (TSC) and the Kenya National Examinations Council (KNEC) as well as the KICD Council for supporting the curriculum review process.

May God bless all the individuals and respective institutions who in one way or another supported the curriculum review process. Indeed, these designs will effectively guide the implementation of the CBC at Primary level, thereby preparing the learner to transition to the Junior School.

Best wishes to all learners and curriculum implementers.

NATIONAL GOALS OF EDUCATION

1. Foster nationalism, patriotism, and promote national unity

Kenya's people belong to different communities, races and religions and should be able to live and interact as one people. Education should enable the learner acquire a sense of nationhood and patriotism. It should also promote peace and mutual respect for harmonious co-existence.

2. Promote social, economic, technological and industrial needs for national development

Education should prepare the learner to play an effective and productive role in the nation.

a) Social Needs

Education should instil social and adaptive skills in the learner for effective participation in community and national development.

b) Economic Needs

Education should prepare a learner with requisite competencies that support a modern and independent growing economy. This should translate into high standards of living for every individual.

c) Technological and Industrial Needs

Education should provide the learner with necessary competencies for technological and industrial development in tandem with changing global trends.

3. Promote individual development and self-fulfillment

Education should provide opportunities for the learner to develop to the fullest potential. This includes development of one's interests, talents and character for positive contribution to the society.

4 Promote sound moral and religious values

Education should promote acquisition of national values as enshrined in the Constitution. It should be geared towards developing a self-disciplined and ethical citizen with sound moral and religious values.

5. Promote social equity and responsibility

Education should promote social equity and responsibility. It should provide inclusive and equitable access to quality and differentiated education; including learners with special educational needs and disabilities. Education should also provide the learner with opportunities for shared responsibility and accountability through service learning.

6. Promote respect for and development of Kenya’s rich and varied cultures

Education should instil in the learner appreciation of Kenya’s rich and diverse cultural heritage. The learner should value own and respect other people’s culture as well as embrace positive cultural practices in a dynamic society.

7. Promote international consciousness and foster positive attitudes towards other nations

Kenya is part of the interdependent network of diverse peoples and nations. Education should therefore enable the learner to respect, appreciate and participate in the opportunities within the international community. Education should also facilitate the learner to operate within the international community with full knowledge of the obligations, responsibilities, rights and benefits that this membership entails.

8. Good health and environmental protection

Education should inculcate in the learner the value of physical and psychological well-being for self and others. It should promote environmental preservation and conservation, including animal welfare for sustainable development.

- h) appreciate the country's rich and diverse cultural heritage for harmonious living.

ESSENCE STATEMENT FOR ENGLISH

English is a major language for education, information, trade, diplomacy, social networking, science, technology, the internet, and travel. It is also the international common tongue, and the most commonly learned foreign language in today's world. In Kenya, English is learned as a second language and functions both as an official language, and the medium of instruction from Grade Four. Hence, mastery of English will not only enhance learning in Junior School, but will also prepare the learner to communicate appropriately in the national and international arenas.

Proficiency in English is key to the realisation of the National Goals of Education, the link to the global community, and the door to the worldwide information network. For this reason, the Upper Primary School learner must be equipped with adequate oral, reading, and writing competencies in the English language. This will enable the learner to function competently in varied national and global communicative contexts.

SUBJECT GENERAL LEARNING OUTCOMES

By the end of the Upper Primary Level, the learner should be able to:

- a) listen for the main idea and specific information from a variety of print and digital texts.
- b) speak, at the right speed, accurately, and with expression on a variety of subjects and genres.
- c) read a variety of texts fluently, interpretively, and with comprehension for lifelong learning.
- d) use grammatical forms to communicate ideas, opinions, and emotions appropriately in different settings.
- e) write texts for various purposes legibly, accurately, creatively, and cohesively for self-expression.
- f) apply Digital Literacy skills to enhance their language competency.

The learner is guided to: <ul style="list-style-type: none"> • read a sample descriptive composition of about 80-100 words with peers and identify the paragraphs, • talk about different activities they engage in such as ‘how we clean our house’ in pairs, • write four descriptive sentences on a given topic about personal hygiene, • write a descriptive composition of about 80 -100 (2 – 3 coherent paragraphs), • proofread and display their composition, • type their compositions on a digital device. 	<ol style="list-style-type: none"> 1. Why should you organise your thoughts in clear sentences and paragraphs? 2. How can you tell others about yourself?

Core Competencies to be developed:

- Self-efficacy: This is achieved as the learner writes descriptive compositions for effective communication.
- Learning to learn: It is enhanced as the learner works with peers to discover how to write descriptive compositions.

Values:

- Responsibility: This is nurtured as the learner engages in assigned roles and duties in different activities of planning and writing a descriptive composition.
- Unity: It is achieved as the learner shares the available resources like the digital devices so that peers can as well type their descriptive compositions on the device.

Pertinent and Contemporary Issues (PCIs):

Proper Sanitation: This is achieved as the learner talks about 'how to clean a house' before peers making them learn sanitation from each other.

Link to other Learning Areas:

The learner relates the skill of descriptive writing to writing skills taught in Kiswahili.

Values:

- Unity: This is developed as the learner works together with peers as they discuss and interpret visuals and mimes collaboratively.
- Love: This is enhanced as the learner appreciates each other's opinions in viewing and interpreting visuals collaboratively.

Pertinent and Contemporary Issues (PCIs):

Self-esteem is achieved as the learner's confidence level is nurtured when they watch videos or mimes and answer questions, interpret visual representations such as mind maps and carry out simple online research on how to play their favourite game.

Link to other Learning Areas:

The learner is able to apply research skills to look for information in all learning areas that they engage in.

The learner is guided to: <ul style="list-style-type: none"> • listen to and write commonly misspelt words, • listen to a dictation and spell selected words and sentences, • search for commonly misspelt words and create a word puzzle with peers, • copy the words correctly in their vocabulary book, • construct sentences using commonly misspelt words, • form commonly misspelt words from jumbled up letters. 	<ol style="list-style-type: none"> 1. Why is it difficult to spell some words correctly? 2. How can we become better at spelling words?

Core Competencies to be developed:

- Critical Thinking and Problem Solving: This is nurtured as the learner makes words from jumbled up letters.
- Learning to learn: This is enhanced as the learner learns how to spell commonly misspelt words through learner centred-activities.

Values:

Responsibility is encouraged as the learner engages in assigned roles of searching for commonly misspelt words and creating puzzles.

Pertinent and Contemporary Issues (PCIs):

- Effective Communication: The learner learns how to spell words correctly and can therefore communicate by writing effectively.
- Self-esteem is developed as the learner engages in games-related activities such as creating a puzzle with commonly misspelt words.

Link to other Learning Areas:

The learner is able to apply knowledge on proper spelling skills to all learning areas as they all insist on correct spelling.

Uses faulty paragraphing, poor punctuation and spelling when writing.
Functional Writing	Ability to write a variety of writings using the correct formats for effective communication	Writes a variety of writings using correct formats and uses appropriate language for varied writing tasks for effective communication	Writes a variety of writings using the correct formats for effective communication.	Writes a number of writings using the correct formats for effective communication.	Writes all the writings using wrong formats.
Creative Writing	Ability to write creative works clearly and expressively for effective communication.	Writes a variety creative works clearly, expressively and convincingly for effective communication	Writes creative works clearly and expressively for effective communication	Writes a few of the creative works clearly but lack expressive ability.	Writes all the creative works without clarity and expressive ability due to limited language ability.

APPENDIX 2: COMMUNITY SERVICE LEARNING

GUIDELINES FOR GRADE 4 COMMUNITY SERVICE LEARNING PROJECT

Introduction

There will be **one** integrated Community Service Learning activity that will be conducted **annually** for Grade 4 learners. The thematic areas for the integrated CSL activity will be derived from the broader categories of the PCIs and will incorporate concepts from the various Learning Areas. Teachers are expected to vary the themes each year to allow learners to address different PCIs within their contexts. A clear linkage should exist between the skills from the learning areas and the chosen themes.

The integrated CSL activity will employ a Whole School Approach (WSA) involving the entire school community including learners, parents/caregivers/guardians, school administration and teachers. Parents/caregivers/guardians are key stakeholders in planning and execution of the CSL activity. While the teacher takes the lead role in planning and integrating the CSL activity, learners are expected to actively participate throughout the process.

The CSL activity provides an opportunity for the development of core competencies and the nurturing of various values. The teacher is expected to vary the core competencies and values emphasised in the activity annually.

Steps in carrying out the integrated CSL activity

1) Preparation

- Determine the activity for the learners
- Map out the targeted core competencies, values and specific learning areas skills for the CSL activity
- Identify resources required for the activity (locally available materials)
- Stagger the activities across the term (set dates and time for the activities)
- Communicate to learners, parents/caregivers/guardians, school administration, teachers and other relevant stakeholders in the school community
- Identify and develop assessment tools

2) Implementation of CSL Activity

- Assigning roles to learners.
- Ensure every learner actively participates in the activity
- Observe learners as they carry out the CSL activity and record feedback.
- Use an appropriate assessment tool to assess both the process and the product (assess learner's work from the beginning to the end product)
- Assess the targeted core competencies, values and subject skills.

3) Reflection on the CSL Activity

Conduct a self-evaluation session with learners on the integrated CSL activity undertaken by discussing the following:

- what went well and why?
- what did not go well and why?
- what can be done differently next time?
- what they have learnt?

ASSESSMENT OF CSL INTEGRATED PROJECT

Assessment of the integrated CSL activity will focus on 3 components namely: skills from various learning areas applied in carrying out the activity, core competencies developed and values nurtured. Assessment should focus on both the process and end product of the CSL activity. The teacher will assess learners in groups using various tools such as observation schedules, checklists, rating scales or any other appropriate assessment tool.
